## SUMMARY

I have a bachelor's degree in Systems Engineering and a master's degree in Organizational Development, and after serving as a military officer for 10 years, I have dedicated myself to DevOps/Cloud Engineering. In 2020, I was forced to relocate my family Switzerland because of political situation and injustices in Turkey. Through 14 months of Clarusway Bootcamp, I have gained a deep understanding of DevOps and Cloud Technology. Over the past 2 years, I've completed over 60 hands-on trainings and 10 projects, as well as obtained certificates in AWS, Azure, Kubernetes, and Terraform. I've spent 81 hours practicing to deploy Terraform-, Docker- and Kubernetes-based workloads, and configure them on the CLI with Linux. Moreover, I have a strong growth mindset combined with open-mindedness and determination that enables me to efficiently learn new skills and adapt to new environments. I'm currently looking for hybrid or remote internship that would allow me to gain work experience in Cloud/DevOps field.

## WORK EXPERIENCE

- |                   |   |
|-------------------|---|
| 08/2019 – 04/2020 | Internet Ads Assessor (remote), Lionbridge, Ireland <ul style="list-style-type: none"><li>• Reviewing the language used in ads by examining grammar, tone cultural relevance (English content moderator)</li><li>• Provide feedback and analysis on ads found in search engine results</li><li>• Reviewing online ads to improve their content, quality, and layout</li></ul>   |
| 11/2016 - 07/2018 | Operations and Training Officer, Turkish Land Forces, Turkey <ul style="list-style-type: none"><li>• Training planning and coordinating military events across multiple troops</li><li>• Preparing and analyzing training results to provide feedback and create insight for future pieces of training</li><li>• Analyzing intelligence reports and providing immediate notice to the troops</li><li>• Performing presentations and making speeches</li><li>• Prepare troops for the audits of top executives</li></ul>   |
